ASHOK PK

Odoo Developer

Payyanur, Kerala, India | +91 99479 59121 | ashokpkmaniyara@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Odoo Developer with 3+ years of experience designing, customizing, and integrating ERP solutions across Odoo v13–v18. Skilled in Python, Odoo ORM, PostgreSQL, REST/JSON-RPC API integration, and asynchronous processing with Queue Job and RabbitMQ. Experienced in leading full-system Odoo migrations, building custom modules, and integrating third-party services such as payment gateways, with a track record of 100% on-time delivery across client engagements.

CORE SKILLS

- Odoo & ERP: Odoo v13–v18, Module Development, Customization, Odoo Studio, ERP Implementation, Workflow Automation
- Programming & Frameworks: Python, Odoo ORM, XML, JSON, HTML, CSS
- Databases: PostgreSQL, SQL
- Integration & Messaging: REST API, JSON-RPC, XML-RPC, Queue Job, RabbitMQ (asynchronous processing)
- Server & DevOps: Odoo.sh, Linux (Ubuntu), Docker, Git, Server Deployment, Backups, Performance Optimization
- Functional Modules: Sales, CRM, Inventory, Purchase, Accounting, Manufacturing, HR, Point of Sale, Website

WORK EXPERIENCE

Odoo Developer — Cybrosys Technologies
Kozhikode, Kerala, India | June 2023 – Present

- Led an end-to-end Odoo migration for a US-based client, upgrading the full ERP system from Odoo v13 to v18, modernizing data structures and improving system stability across Sales, CRM, Inventory, Purchase, Accounting, Manufacturing, and HR modules.
- Integrated the MultiSafepay payment gateway into Odoo to enable secure online transactions, strengthening the platform's e-commerce and checkout reliability for customers.
- Directed a Product Details data migration project from Odoo 13 to Odoo 18, preserving data integrity and configurations while building a custom backend theme module that improved navigation and visual consistency.
- Customized Sales, Purchase, Website, and Point of Sale modules and built custom PDF and XLSX reports, streamlining workflows after close collaboration with stakeholders to define requirements.
- Built and maintained scalable Python and Odoo ORM code, optimizing database queries to improve system speed and efficiency.
- Implemented asynchronous processing using Queue Job and RabbitMQ to handle high-volume background tasks without blocking core ERP operations.
- Extended Odoo functionality by integrating external systems through REST and JSON-RPC APIs, connecting third-party services across multiple business modules.
- Researched and developed custom modules and ERP features in Odoo Studio, tailoring solutions to specific client business needs.
- Partnered with functional consultants and clients to gather requirements and deliver tailored Odoo solutions, achieving faster user adoption and 100% on-time project delivery.
- Coordinated with QA and deployment teams across testing, implementation, and post-deployment support, using Git, Docker, and Odoo.sh to ensure reliable releases.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
College of Engineering Trikaripur, Kasaragod, Kerala, India | July 2022
